<b>FROM</b>	Katy Hornbeck, Grants Manager Deborah Spaulding, Assistant General Manager of Finance & Management Services / Chief Financial Officer
<b>APPROVED</b>	Sabrina Landreth, General Manager 

---

**RECOMMENDATION**

This is an informational item.

**BACKGROUND**

Representatives from the East Bay Regional Park District's (Park District) Grants Department will provide a briefing report on recently applied and awarded grants, as detailed in the attached Grants Report.

**ANALYSIS**

The Grants Department works closely with the General Manager's Office to actively apply, secure, and manage grant funding through a District-wide collaborative effort. This work also includes strategic and sustained engagement with funding agencies for submission, responsiveness on additional information, feedback on applications not selected for grant funding, and management of grant when funds are awarded.

As of May 21, 2024, the Park District submitted six grant applications to support capital improvement and restoration projects with a value of \$2.93 million. All projects are in alignment with the state and Federal 30x30 Conservation Initiative with the intention to accelerate the Park District's mission delivery in three primary areas: protection and restoration of biodiversity, expand access to nature, and mitigate and build resiliency to a changing climate.

Additionally, during this reporting period, the Park District received notice of one funding award in the total amount of \$50,000 from the United States Fish and Wildlife Service to support the East Bay Seeding project in multiple parks.
