DIVISION	Acquisition, Stewardship, and Development
FROM	Matt Graul, Chief of Stewardship Ken Wysocki, Assistant General Manager of Acquisition, Stewardship & Development
APPROVED	Sabrina Landreth, General Manager 

RECOMMENDATION

This item is for information only.

BACKGROUND

The Park District's Integrated Pest Management (IPM) Specialist Pamela Beitz, and IPM staff members: IPM Ecologist Jaclyn Lim and Vegetation Ecologist Tatiana Manzanillo will present on the IPM program approach, trends, and case studies for 2023. The IPM program has emphasized training to prevent the spread of pathogens and focused on providing technical assistance to key parks to develop Park Management Area maps. The IPM program continued its focus on controlling noxious rangeland weeds to restore grassland habitat and control growth of invasive plants and ladder fuels in our wildland urban areas. The final published report will be available before year end.
