EXAMPLE SUSTAINABLE PURCHASING GUIDE

Sustainable Purchasing Guide

Cleaning Chemical Products

Use this Guide When Purchasing

- General/multi-purpose cleaners
- Glass cleaners
- Floor & carpet cleaners
- Non-disinfecting restroom cleaners
- Specialty cleaners such as: degreasers, dishwashing detergents, laundry detergent, wood & metal polishes, and drain cleaners

Keeping your facility clean is one of the most important ways to maintain a healthy indoor environment, but using some cleaning products may actually increase indoor air pollution. Using products that meet the Minimum Requirements below will, when properly used, not only meet performance requirements, but also reduce custodial workers' and occupants' exposure to harmful chemicals.

How to Purchase

Check with your central procurement office or administrative or facilities staff to find out if you have any contracts that employees are required to use to purchase cleaning products. When you are seeking these products in a store or online, check the product details to confirm it meets the Minimum Requirements listed below. If cleaning products are included in your custodial service contracts, require vendors to use products that meet the following Minimum Requirements as well.

Product Requirements - specify or seek:

MINIMUM REQUIREMENTS/SPECIFICATIONS

- Product currently has at least one of the following low-toxicity certifications:
 - Green Seal
 - Safer Choice
 - UL ECOLOGO

LEADERSHIP OPPORTUNITIES

Minimum Requirements plus one or more of the following:

- Concentrated products with a built-in or compatible closed-loop dilution control system
- Fragrance-free
- USDA Biobased certified
- Non-aerosol
- Not a single-use disposable wipe product
- Packaging is recyclable in your municipal system

	2023	YTD 2024	Forecast 2024	Change%
■ Eco Friendly	4252	3422	4481	5%
■ Sales	\$443,647	\$448,678	\$551,780	24%
■ Non-Eco	6515	5456	6940	7%
■ Sales	\$509,975	\$404,539	\$506,764	-1%

Recognition

Bay Area Green Business

- ◆ HVAC Maintenance
- ◆ LED lighting use
- ◆ Water flow/ usage
- ◆ Irrigation- Smart Controllers
- ◆ Solar
- ◆ Energy Star Equipment

Opportunities

- * Culture
- * Expanding product and material inventory
- * Tracking and Monitoring of purchases

Next Steps

- ◆ Continue to seek environmentally friendly alternatives
- ◆ Continue training new and existing staff
- ◆ Develop mechanism for tracking and monitoring compliance with Policy
- ◆ Bi-annual meetings with MAST, Fleet Management, and Design and Construction

Green Products Examples

The background features a series of overlapping, semi-transparent green triangles and polygons in various shades, ranging from light lime green to dark forest green. These shapes are primarily located on the right side of the slide, creating a modern, geometric aesthetic.
