

**EAST BAY REGIONAL PARK DISTRICT
BOARD OF DIRECTORS MEETING
AGENDA STAFF REPORT**

DATE	May 21, 2024
TITLE	Authorization to Increase Contract with Perficient by \$100,000 to Provide GIS Cloud Hosting Services
DIVISION	Finance and Management Services
FROM	David Rusting, Chief Information Services Deborah Spaulding, Assistant General Manager Finance and Management Services
APPROVED	Sabrina Landreth, General Manager 

RECOMMENDATION

The General Manager recommends that the Board of Directors of the East Bay Regional Park District (Park District) authorize the execution of an amendment to increase the total amount of the contract with Perficient by \$100,000 for a total contract amount of \$550,000 for Microsoft Azure Cloud Services for maintenance of the Park District's Geographic Information System (GIS).

BACKGROUND

The Park District's GIS system is used for a variety of mapping, planning, analytics processes, such as park boundaries, trails, habitats, and vegetation. This is a critical activity to the Park District, and to ensure effective access to the GIS system and data. Use of these services have expanded over the previous year, so as more computing resources and storage is required, the costs increase in a linear fashion.

In Fall of 2023, the Park District engaged with external experts in GIS software, to assess and provide recommendations to improve performance of the GIS systems. Based on those recommendations, additional resources were configured on the GIS system, which have successfully improved performance. These improvements have created an increase cost, requiring an amendment to the contract with Perficient.

ANALYSIS

Perficient provides the Park District a platform for computing and storage of Park District GIS data using Microsoft Azure through monthly billed service. In December of 2023, the Board approved the service for 2024 with Resolution 2023-12-273 for \$450,000. The current request for Board approval is for an additional \$100,000 required for services in 2024. Bidding is not required, as this pricing leverages pre-bid local government procurement contracts. However, Board authorization is necessary since the purchase amount exceeds \$50,000.

The Board could choose not to proceed with the purchase, but this is not recommended due to the need to maintain GIS systems for the Park District for daily business operations.

FISCAL IMPACT

The increased cost is estimated at \$100,000 for cloud computing and data storage services for 2024 which would bring the total contract to \$550,000.

Budgeted funds are available in the Information Services General Fund operating budget (101-4150-000-6921) in the amount of \$100,000.
