

**EAST BAY REGIONAL PARK DISTRICT  
BOARD OF DIRECTORS MEETING  
AGENDA STAFF REPORT**

---

<b>DATE</b>	Tuesday, April 2, 2024
<b>TITLE</b>	Project Update on the Replace Environmental Education Center (EEC) Project at Tilden Nature Area: Tilden Regional Park
<b>DIVISION</b>	Acquisition, Stewardship, and Development
<b>FROM</b>	Ren Bates, Chief of Design & Construction Ken Wysocki, Assistant General Manager
<b>APPROVED</b>	Sabrina Landreth, General Manager 

---

**RECOMMENDATION**

This item is informational.

**BACKGROUND**

This project will replace the existing Tilden Environmental Education Center (EEC) facility and adjacent security residence in Tilden Regional Park. The project is located at the northern end of Central Park Drive in Contra Costa County and within the Tilden Nature Area (TNA). The facility, which was constructed in the mid 1970's, needs replacement to address its physical programming limitations and Americans with Disabilities Act (ADA) deficiencies, and to bring the building and facility up to current codes.

The Board of Directors authorized the execution of a professional services contract with Esherick Homsey Dodge and Davis (EHDD) of San Francisco, CA for architectural and engineering services via Board Resolution No. 2023-03-055. EHDD's scope of services includes facilitating a community engagement process, developing a building and site program, and producing a conceptual building and site design with renderings of the project. The contract was amended via Board Resolution No. 2023-09-199 to add services including pre-design and schematic design phases of the project's interpretive exhibits and features.

Since the last update to the Board, work has continued with design development of the preferred scheme. Jim Devlin, District Architect, will provide an update on the project including the developed site plan, building plan, and building elevations.
