RECOMMENDATION

This is an informational item.

BACKGROUND

The role of the Trails Program Unit is to facilitate the planning, acquisition and development of new paved and unpaved regional trails and natural surface trails within East Bay Regional Park District (Park District) lands or easements. The Trails Program coordinates with internal departments, public agencies, volunteers, and the community to expand the Park District's trail network.

Staff will provide a general update on the Trails Program and several capital trail projects being focused on in 2024. A brief update on the Briones Pilot Project and an overview of the Trails Strategic Plan will also be provided. Following the presentation staff will open the meeting up for discussion regarding other trail related items.
