BACKGROUND

Representatives from the East Bay Regional Park District's (Park District) Grants Department will provide a briefing report on recently applied and awarded grants, as detailed in the attached Grants Report.

ANALYSIS

The Grants Department works closely with the General Manager's Office to actively apply, secure, and manage grant funding through a District-wide collaborative effort. This work also includes strategic and sustained engagement with funding agencies for submission, responsiveness on additional information, feedback on applications not selected for grant funding, and management of grant when funds are awarded. As of November 21, 2023, the Park District submitted four grant applications to support capital improvement and restoration projects with a value of \$4.6 million. All projects are in support of the 30x30 Initiative. Additionally, during this reporting period, the Park District received notice of one funding award in the total amount of \$1 million to support the Martinez SF Bay Trail project in Martinez-Radke Regional Shoreline.
