**RECOMMENDATION**

The General Manager and the Board Operations Committee, by unanimous vote at its October 16, 2024 meeting, recommend that the Board of Directors adopt the 2025 Fee Schedule and Parking Citation Penalties, as described in the attached schedules, to become effective January 1, 2025.

**BACKGROUND**

The East Bay Regional Park District (Park District) maintains a Fee Schedule that is reviewed annually and updated as necessary. The Park District worked with Matrix Consulting Group to complete a Fee Study and Cost Allocation Plan (Fee Study) in 2023 which was reported to the Board Operations Committee in December 2023 and to the Park Advisory Committee (PAC) in February 2024. The findings of the Fee Study were evaluated in conjunction with a PAC survey as well as Guiding Principles that were developed through the Fee Study process. This evaluation resulted in a recommendation to modify fees for several reasons, including impact on staff and resources, cost recovery levels, and level of benefit to the collective community provided by the fee-based service.

The Fee Schedule is included as an attachment to this report as well as being posted on the Park District website and divided into three main sections: 1) administrative and document fees, 2) miscellaneous fees, and 3) park use and facility fees. This latter category is further sub-divided by fees charged to the public by staff vs concessionaire fees. In accordance with the Board Operating Guidelines Section 3.1.3, recommended changes to the Fee Schedule are reviewed by the Board Operations Committee and then approved by the full Board of Directors. In addition, the Park District assesses fines for parking violations. While fees are intended to recover, in part, costs of providing a service, fines are monetary punishments for rule violations. Parking citation penalties are therefore listed separately from the fee schedule and attached to this staff report. Changes are recommended to Park District fees and fines as summarized below:

**Categories: Administrative and Document Fees & Public Safety Parking Citation Penalties**

Public Safety recommends an increase in vehicle release fees, most of which have not been updated since 2011 or earlier. Staff reviewed vehicle release fees at six neighboring agencies, and their recommended increases would result in vehicle release fees that would be closer to, yet still below, the median of those of the neighboring agencies.

Public Safety also recommends an increase in parking citation penalties. Pursuant to Vehicle Code section 40200 et. seq., public agencies should endeavor to align the penalty for parking citations to the amounts charged by other jurisdictions in the county. After surveying six neighboring agencies, Public Safety recommends increases in the penalty amount for parking citations.

**Category: Park Use and Facility Fees**  
**Sub-category: Concessionaire Fees**

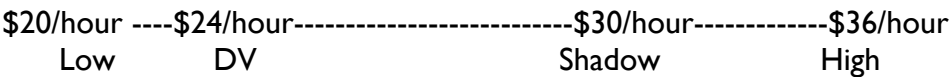

Concessionaires are private companies operating publicly owned facilities pursuant to concession agreements authorized by the Board of Directors. While all concession fees are subject to approval by the Board of Directors, the concession agreements state that approval of fee changes shall not be unreasonably withheld by the Park District.

Proposed fee changes are based on a variety of factors, including operating costs, fee structure updates, and price comparisons of similar facilities operated by other agencies, businesses, and service providers in the area. It is expected that fees for similar types of services will vary from concession to concession since each concession operation is unique in terms of its location and business model.

Staff review all concessionaire fee change proposals to make sure they are reasonable as compared to other similar services provided regionally. Whenever available, staff compare to other privately operated, publicly owned facilities. The proposed concession fee changes are generally within the low to middle range of similar services; however, even the proposed fee changes in the middle to high range were determined to be reasonable during the staff review and are recommended to be adopted as part of the 2025 fee schedule.

***Example Regional Comparison***

Del Valle Marina and Shadow Cliffs Marina are proposing to change hourly kayak rentals to \$30/hour and \$24/hour respectively. This compares to other regional rentals (including Lake Chabot Marina) as follows:

There are proposed changes to 12 of the concessionaire's fees at the locations shown in the table below:

| Type       | Concession Name   | Proposed Fee Changes<br>Regional Comparisons Range*                           |

**Category: Park Use and Facility Fees**

**Sub-category: Park Use and Facility Fees**

Staff proposes several changes to park use and facility fees as recommended by the guidelines developed from the Districtwide Fee Study. Proposed changes are intended to better reflect actual impact to the Park District, consolidate varied pricing, and address frequent processing challenges.

## **Category: Park Use and Facility Fees**

### **Sub-category: Inactive Fees**

Staff proposes removing the Interactive Play Equipment Permit and Swim Area / Private Pool Rental fees in 2025 as those services have not been offered by staff for several years or are otherwise unfeasible.

### **ANALYSIS**

Proposed fee changes are reviewed in detail and compared with similar agencies and businesses where data is available. Recommended fee changes are comparable and competitive, largely keeping pace with local market changes and remaining within the middle to low range of like services. Proposed changes to the parking citation penalties have not been updated since 2011 or earlier and are reasonable as compared to what other public agencies are assessing for similar violations pursuant to Vehicle Code section 40200 et. seq. Park Use fee proposed changes are consistent with Fee Study recommendations and Guiding Principles.

### **FISCAL IMPACT**

Staff recommended changes to the Fee Schedule may result in changes to specific line-item revenue types, with an overall increase in fees expected, as well as improved cost recovery in certain areas as identified by the Fee Study.

Public Safety also recommends an increase in parking citation penalties. Pursuant to Vehicle Code section 40200 et. seq., public agencies should endeavor to align the penalty for parking citations to the amounts charged by other jurisdictions in the county. After surveying six neighboring agencies, Public Safety recommends increases in the penalty amount for parking citations.
